

Our Remote Deposit feature allows the user to convert paper checks into electronic images, which have the same legal standing as the physical checks. Because the checks are electronic documents, scanned checks can be deposited online enabling funds to move quicker from the checks originator's account to that of the depositor.

PRODUCT FEATURES

- Scanned checks received prior to 5:00 PM CST shall be available the next banking day
- Scanned checks received for deposit can be viewed front and back prior to submission
- Export capabilities are available to assist with record keeping
- User Entitlements

PRODUCT BENEFITS

- Allows client to make daily deposits throughout the day without leaving their office
- Improves cash flow by expediting collection time
- Back up electronic images can be stored at the bank for future research as needed
- Management control can be improved as owners/supervisors can review imaged deposits
